January 2004

Re: Tempe Supplement to the MAG Uniform Standard Details
and Specifications for Public Works Construction

Engineers, Contractors, Interested Agencies:

The January 2004 version of the above referenced document is now available for purchase. The details have been updated with numerous revisions, mostly minor in nature. Please note that these are not prescriptive standards and the design and/or construction professional must ensure the adequacy and appropriate use of these standards for their project.

The updated detail book can be purchased at the City of Tempe Engineering Division, 31 E. 5th Street, west wing of the garden level for a fee of \$15.00. The details are also accessible through our web site at www.tempe.gov/engineering.

This update also includes copies of the current City of Tempe Supplement to the Maricopa Association of Governments Uniform Specifications for Public Works Construction. The standard detail and specification revisions and additions are effective immediately.

Sincerely,

Andy Goh, P.E.
Deputy PW Manager/City Engineer
